Research Papers

Interception loss as a function of rainfall and forest types: stochastic modelling for tropical canopies revisited
R.L. Hall 1
Inferring the location of catchment characteristic soil moisture monitoring sites. Covariance structures in the temporal domain
T.K. Thierfelder, R.B. Grayson, D. von Rosen and A.W. Western 13
Sediment deposition from flow at low gradients into a buffer strip—a critical test of re-entrainment theory
C.W. Rose, B. Yu, W.L. Hogarth, A.E.A. Okom and H. Ghadiri 33
Methodology for construction, calibration and validation of a national hydrological model for Denmark
H.J. Henriksen, L. Troldborg, P. Nyegaard, T.O. Sonnenborg, J.C. Refsgaard and B. Madsen 52
Simulating sensitivity of soil moisture and evapotranspiration under heterogeneous soils and land uses
R. Mahmood and K.G. Hubbard 72
Influence of forest fires on climate change studies in the central boreal forest of Canada
C. Valeo, K. Beaty and R. Hesslein 91
Scaling effects on modeled surface energy-balance components using the NOAH-OSU land surface model
V. Sridhar, R.L. Elliott and F. Chen 105
Modelling of evaporation in a sparse millet crop using a two-source model including sensible heat advection within the canopy
M.R. Lund and H. Soegaard 124
Sequential assimilation of soil moisture and streamflow data in a conceptual rainfall–runoff model
D. Aubert, C. Loumagne and L. Oudin 145
The simulation of heat and water exchange in the boreal spruce forest by the land-surface model SWAP
Y.M. Gusev and O.N. Nasonova 162
The effects of partial rootzone drying on root, trunk sap flow and water balance in an irrigated pear (*Pyrus communis* L.) orchard
S. Kang, X. Hu, P. Jerie and J. Zhang 192
Development of a high resolution runoff routing model, calibration and application to assess runoff from the LMD GCM
A. Ducharne, C. Golaz, E. Leblois, K. Laval, J. Polcher, E. Ledoux and G. de Marsily 207
Flood delineation in a large and complex alluvial valley, lower Pánuco basin, Mexico
P.F. Hudson and R.R. Colditz 229
Stream water infiltration, bank storage, and storage zone changes due to stream-stage fluctuations
X. Chen and X. Chen 246
Alternative PWM-estimators of the Gumbel distribution
P.F. Rasmussen and N. Gautam 265
Correlation between microbiological and chemical parameters of some hydrothermal springs in New Mexico, USA
B. Rzonca and D. Schulze-Makuch 272
